# CITY OF SAN DIEGO

## Vision Requirements for Fire Fighter Candidates

1. Prior to being hired or offered employment, applicants must pass every aspect of a comprehensive medical examination and review of their medical history. Every medical standard must be met before an applicant will be approved by the City's examining physician. Vision standards are of no more importance than any other medical standard, but are given explanation because of new technology.
2. Your visual acuity must be 20/20 corrected or uncorrected, both eyes together. If your vision needs correction to 20/20, it must be corrected with eyeglasses at the time of the preplacement medical examination given by the City of San Diego. You will need to take your eyeglasses with you to the medical examination appointment.
3. In addition to meeting the requirements in # 1 above, if your vision needs correction to 20/20, you may choose to wear soft contact lenses. If you plan to wear soft contact lenses on the job, take your lenses with you to the medical examination appointment.

Hard contact lenses, including those known as semi-soft, semi-rigid, semi-permeable, gas permeable, and similar lenses are not acceptable. Orthokeratology lenses are also not acceptable.

If you choose to wear soft contact lenses, you will be asked to present satisfactory medical evidence from your private optometrist or ophthalmologist documenting that you currently are a successful wearer of these lenses. Such documentation must also indicate if you have any medical contraindications to wearing soft contact lenses. We will request this information from you following the medical examination given by the City.

4. (a). If you have undergone any type of refractive vision surgery (or "touch up" surgery) such as Laser-Assisted In Situ Keratomileusis (LASIK), radial keratotomy (RK) or photorefractive keratectomy (PRK) a year or longer prior to being medically considered for a Police Recruit or Police Officer position, you must be substantially free of vision problems including, but not limited to: impaired vision at night or under dim lighting conditions; sensitivity to glare; starbursts experienced around light sources such as street lights or headlights; hazing or blurring of vision; eye irritation and pain; progressive regression of visual acuity; and/or daily changes in visual acuity. Your vision must be 20/20 both eyes together. If it is not, it must be corrected to 20/20 both eyes together in accordance with the requirements in No. 1, 2, or 3 above.

You will be asked to submit the results of a recent eye examination from your private ophthalmologist documenting the status of your vision. We will request this information from you following the medical examination given by the City.

- (b). If you have undergone any type of refractive vision surgery (or "touch up" surgery) within less than a year of being medically considered for a Fire Fighter position, you may be hired on a conditional basis if you successfully complete a City provided vision examination prior to hire and at periodic intervals thereafter until one year has elapsed from the date of the last vision surgery or "touch up" surgery. You must be substantially free of the vision problems outlined in paragraph 3(a) above. Your vision must be 20/20 both eyes together. If it is not, it must be corrected to 20/20 both eyes together in accordance with the requirements in No. 1 or 2 above.
5. In all cases, you need to have binocular vision (vision in both eyes), normal visual fields, normal binocular fusion, and freedom from other visual conditions that would interfere with your ability to perform the full range of duties of a Fire Fighter with the San Diego Fire-Rescue Department.
6. In all cases, you need an acceptable level of color vision. This is determined at the time of the medical examination given by the City using standardized color vision tests.
